

Food Service Application Guide

Quality floor mats for the entire restaurant—from the entrance to the kitchen

Restaurants vary widely in aesthetics, layout, culinary style, and theme. But most restaurants share the same basic structure when it comes to the various areas or zones, such as the entranceway, kitchen, dining area, dishwashing zone, and receiving or backdoor area. Choosing the right mat can help make staff happier and healthier, and enhance the experience for your customers.

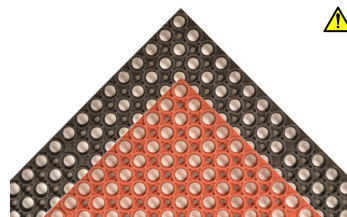

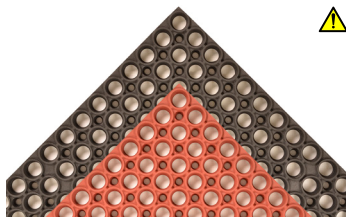

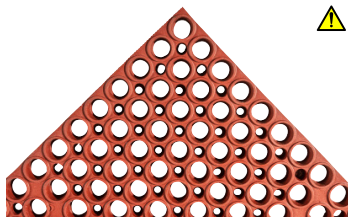

Not all floor mats are created equal. Select mats with the optimum combination of comfort, drainage and quality for each zone.

Food Prep/Cooking

Mats for the kitchen are typically heavy-duty with grease resistance. Choose lightweight mats to easily pick up for cleaning.

T11 San-Eze II®

- Top-of-the-line, heaviest-duty, lightest-weight food service mat available
- Nitrile for grease resistance
- NSF tested and certified
- Manufactured with MicroStop®

T12 San-Eze®

- Premier, heavy-duty kitchen mat for anti-fatigue support
- Nitrile for grease resistance
- Manufactured with MicroStop®

T13 Tek-Tough®

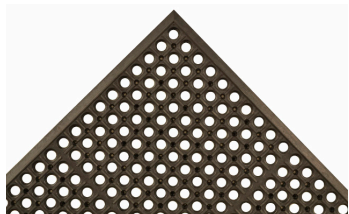

- Heavy-duty kitchen mat for anti-fatigue support
- Choose black (rubber) for food prep and red (nitrile) for cooking
- Manufactured with MicroStop®

T25 Challenger™

- Everyday rubber kitchen mat for anti-fatigue support
- Lightweight construction is easy to handle

Dishwash

Anti-fatigue, non-slip mats with drainage are critical for workers who have to stand for long periods in wet areas.

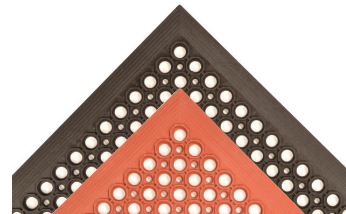

619 Drain Lite™

- Everyday, rubber, slip-resistant mat
- Lightweight construction is easy to handle
- Molded-in beveled edges reduce trip hazards

T18 Superflow™

- Lightweight, long lasting kitchen mat
- Reversible design extends service life
- Molded-in beveled edges reduce trip hazards

T30 Competitor™

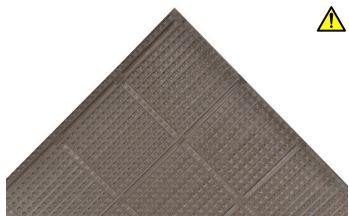

- Everyday rubber kitchen mat
- Lightweight construction is easy to handle
- Molded-in beveled edges reduce trip hazards

MicroStop is an antimicrobial rubber compound that inhibits the growth of bacteria and fungi that can cause odor, stains and product deterioration.

Food Storage/Walk-in Freezer

Mats for coolers are made to withstand cold temperatures, but also to provide traction using specially designed patterns on the mat surface.

765 Deep Freeze Mat™

- Rubber mat designed for freezers—withstand temperatures to -40 F
- Non-slip surface enhances traction
- Manufactured with MicroStop®

WARNING: This product can expose you to chemicals including diisodecyl phthalate which is known to the State of California to cause birth defects or reproductive harm, and 2-mercaptobenzothiazole which is known to the State of California to cause cancer. **Don't forget...
T43 Hot Water Hose & Nozzle**

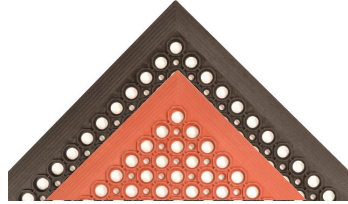

Behind the Bar

These anti-fatigue mats with drainage holes provide non-slip support for workers who stand for long periods in potentially wet areas.

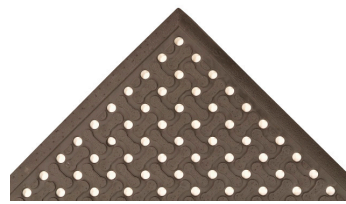

523 Modular-Lok-Tile™

- Lightweight PVC interlocking drainage tiles
- Use as shelf liners in food prep and bar areas
- NSF tested and certified (as shelf liners)

T30 Competitor™

- Everyday rubber anti-fatigue mat
- Lightweight construction is easy to handle
- Molded-in beveled edges reduce trip hazards

T18 Superflow™

- Lightweight, long-lasting workstation mat for anti-fatigue support
- Reversible design extends service life
- Molded-in beveled edges reduce trip hazards

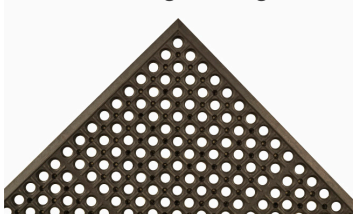

T17 Superfoam™

- Extremely lightweight, PVC/nitrile foam blend anti-fatigue mat
- Highly resistant to grease, oils and animal, and vegetable fats
- Does not absorb liquids

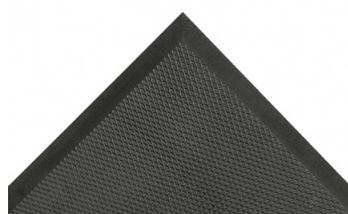

Order/Water Station

Visited frequently by servers, these areas are often wet, requiring non-slip support with drainage. Use grease-resistant mats in stations located nearby kitchens.

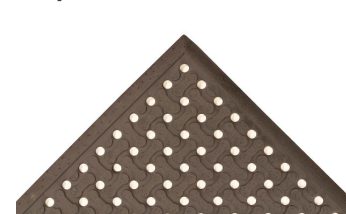

619 Drain Lite™

- Everyday, rubber, slip-resistant mat
- Lightweight construction is easy to handle
- Molded-in beveled edges reduce trip hazards

425 Superfoam™ Revive RS

- Durable, rubberized gel foam mat designed for extreme ergonomic comfort
- Soft upper layer and a dense under layer with mildew-proof antibacterial formulation makes the mat more hygienic, long lasting

T18 Superflow™ Black

- Lightweight, long-lasting workstation mat for anti-fatigue support
- Reversible design extends service life
- Molded-in beveled edges reduce trip hazards

Host/Hostess Station & Cash Register

Employees constantly move in and out of these stations as they interact with guests. Mats for these areas are general-purpose, anti-fatigue mats that will provide back and leg support for employees.

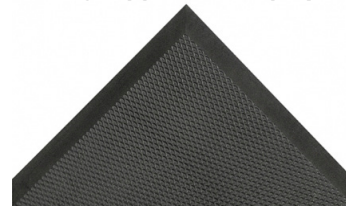

411 Sof-Tred™

- Foam anti-fatigue mat that relieves leg and back discomfort
- Non-directional pebble texture adds traction

T17 Superfoam™

- Extremely lightweight, PVC/nitrile foam blend anti-fatigue mat
- Highly resistant to grease, oils and animal, and vegetable fats
- Does not absorb liquids

425 Superfoam™ Revive RS

- Durable, rubberized gel foam mat designed for extreme ergonomic comfort
- Soft upper layer and a dense under layer with mildew-proof antibacterial formulation makes the mat more hygienic, long lasting

Outside Entrance Mats

A tough outdoor entrance mat works as the first defense against moisture and debris brought into your restaurant.

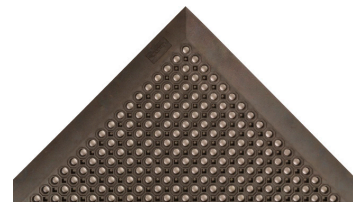

340 Soil Guard™

- Durable, rubber mat with low profile for door clearance/cart traffic
- Raised bar design scrapes debris from shoes

T28 Finger Scrape®

- Tough rubber scraper mat remains flexible in cold temperatures
- Thousands of flexible rubber fingers sweep shoes clean

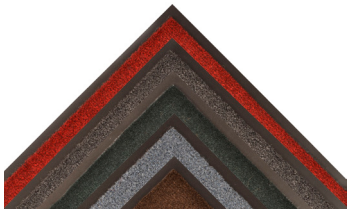

599 Oct-O-Flex™

- Heavy weight rubber mat remains flexible in cold temperatures
- Unique design drains water and debris

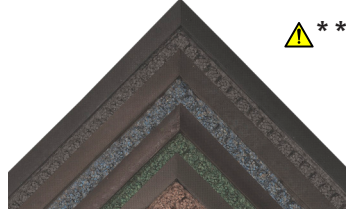

Indoor Entrance Mats

An indoor entrance mat works in conjunction with your outdoor mat to keep debris from entering your restaurant.

130 Sabre™

- Durable olefin fiber entrance mat provide moisture and dirt retention for drying shoes
- Light to medium foot traffic

166 Guzzler™

- Waffle high/low pattern facilitates scraping and keeps moisture and debris away
- Medium to heavy foot traffic

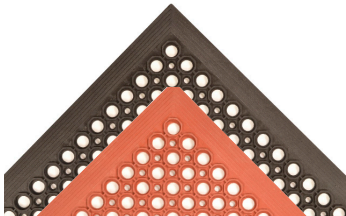

193 Custom Logo Mat

- Promote your brand or message while stopping dirt and debris at the door

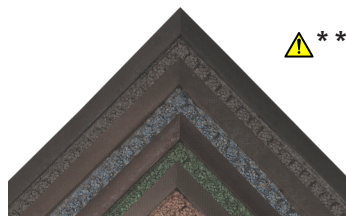

Receiving

For employees working in backdoor receiving areas and dining room drink stations, all-purpose mats provide traction and support, as well as a low profile to allow carts to move on and off easily.

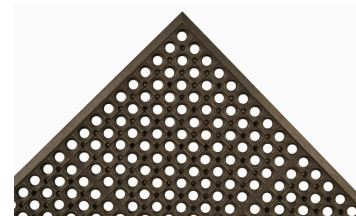

T30 Competitor™

- Everyday rubber anti-fatigue mat
- Lightweight construction is easy to handle
- Molded-in beveled edges reduce trip hazards

166 Guzzler™

- Waffle high/low pattern facilitates scraping and keeps moisture and debris away
- Medium to heavy foot traffic

619 Drain Lite™

- Everyday, rubber, slip-resistant mat
- Lightweight construction is easy to handle
- Molded-in beveled edges reduce trip hazards
