

Mud, Debris & Snow Ice Boot Scraper™ Mat 352

Product Images

Short Description

- Ideal for outdoor entrances - Removes dirt and muck from the bottom and sides of your shoes and boots
- Dirt and debris are easily shaken off, while snow and ice melt filters down the front and back edges
- Flexible top surface and side wall finger-tips can scrape mud, grass clippings, snow, salt, sand or any type of dirt that is better left outside
- Stop dirt, sand, grass, snow, salt and mud at the door
- Boot cleaner mat is made of resilient natural rubber compound
- Designed to be bolted down in a permanent position or as a portable standalone mat

Description

Boot Scraper™ removes dirt and muck from the bottom and sides of your shoes and boots. Durable construction has flexible rubber fingers to quickly remove debris before it can be tracked inside your facility. This boot brush station is designed to be bolted down in a permanent position or lightweight enough to be portable to go where you go. Performs in the harshest elements and it easy to clean and maintain.
